Re: Buy American Provisions - American Recovery and Reinvestment Act of 2009 (ARRA)

SCAFCO Steel Stud Company manufactures its steel framing products in Spokane Washington.

SCAFCO guarantees that the steel production, including all manufacturing processes, takes place in the United States meeting the specifications of the ARRA.

In accordance with the ARRA, the following steps will need to be followed to ensure the certification of material:

- 1) SCAFCO must be notified at time of order that products must meet the Buy American Provision in the ARRA.
- 2) Stock pulled from yard stock must be verified before delivery or will call.

For questions or comments, please contact Technical Services at 509-343-9000.

Sincerely,

Jon-Paul Cardin
Cold-Formed Steel Design
